ABSTRACT

Objective: Present a real-time way established on Bluetooth for pursuing mechanisms to retain your belongings safe.

Methods: The incentive of this discover is for all kind of people who losing their belongings, can trail their items by employing Bluetooth- Pursuing mechanism that is PROTAG ELITE.

Findings: The Bluetooth- Pursuing mechanism that is PROTAG ELITE is utilized to trail each kind of your belongings. PROTAG ELITE is a sleek and slender trust card sized Bluetooth- Pursuing mechanism that automatically alerts you whenever you are out of the enumerated harmless zone. You can set the distance settings facilely via Wi-Fi networks. Just slide this into your purse (or) wallet and be on your way. It uses Bluetooth low power knowledge that run on both IOS and Android periods and its USB chargeable battery can last 18 months.

Improvements: The drawbacks are decreased in this counseled system. Finally, examination aftermath displayed that the counseled method provides 99% pursuing of your belongings.

Keywords: Bluetooth- Pursuing mechanism, PROTAG ELITE, duet, USB chargeable battery.

1. INTRODUCTION

The difference amid misplacing your phone and your keys/wallets/remote manipulation is that you can merely call your phone and pursue the ringtone to find it. There are additionally apps that allow you find your mechanism if it is capitulated in an area locale for the supplementary items though, you'd plausibly demand to clean your room or residence to find them, or design a labeled locale to depart your essentials so you can find them facilely beforehand departing the home. Alternatively, you can use Bluetooth to aid you make sure you not ever lose each of your items again.

A Bluetooth low power Ran tagging tech for pursuing priceless items. The Bluetooth- pursuing mechanism that is, PROTAG ELITE is utilized to trail each kind of your belongings. PROTAG ELITE is a sleek and slender trust card sized Bluetooth pursuing mechanism that automatically alerts you

whenever you are out of the enumerated harmless zone. Losing vital items is always a concern, exceptionally after it comes to intelligent phones. Whether phones are misplaced in the sequence of a date or left behind after advancing concerning, it is something that happens frequently. But what if there was a mechanism that might retain everyone from forgetting them? What if it there was a tiny, inconspicuous pursuing tag that might aid locates the phone or the item it was attached to? Fortunately, there is no demand to wonder- as PROTAG proposals the Duet to fit those need.

PROTAG ELITE includes a proximity notice, that can alert you via your intelligent phone after you move of scope of the tag. PROTAG additionally includes a cloud arrangement for pursuing the intelligent phone to that you have downloaded the corresponding pursuing app- so you can log into your PROTAG report via one more mechanism that yet in your ownership to think the last recognized locale of your phone on map.

The counseled arrangement in this discover uses Bluetooth- pursuing mechanism that is, PROTAG ELITE to trail your belongings and automatically alert you whenever you are out of the enumerated harmless zone. You can set your distance settings facilely via Wi-Fi networks.

2. PROPOSED BLUETOOTH- TRACKING DEVICE

2.1. Intelligent alert

The early pace of the counseled tiny discovering mechanisms to trail your belongings is intelligent alert. Its intention is unnecessary alerts at residence will not be occurred. For example: after you depart your kitchen for a snack. Best will not alert. Best is an intelligent method, it knows after you are in your safeguard zone and it will not interject by alert. It reminds you that you left your valuables behind after you depart the harmless zone.

Fig1: intelligent alert

It uses alert box, whenever a PROTAG mechanism is beyond the set protection distance, the app will alert you and you select one of the 3 options, and it is shown in Fig 2: Alert box.

- ❖ **Snooze alarm**- snooze the alarm for a era of period accordingly to the dials.
- ❖ **Reconnect** – endeavor to reconnect to the PROTAG device.
- ❖ **Stop** – halt monitoring the PROTAG device.

2.7. Technical specification

CONNECTIVITY	Bluetooth 4.0(Bluetooth low energy)
CHIP	CSR 1000
COMPATIBILITY	IOS and Andriod3
NUMBER OF PAIRING PER PHONE	Up to 10
RECHARGING MECHANISM	Push out USB port
BATTERY	150 MAH 3.7 V Li-polymer
BATTERY LIFE	1year each price up to 500 price cycle
RANGE	Up to 100ft(30 metres)
DIMENSIONS	84mm*53mm*3mm
WEIGHT	18g

3. RESULTS AND DISCUSSIONS

Finally, PROTAG ELITE is sleek and slender trust card sized Bluetooth pursuing mechanism that automatically alerts you whenever you are out of the enumerated harmless zone. You can set the distance settings facilely via Wi-Fi networks. Just slide this in to your purse or wallet and be on your way. It uses Bluetooth low power knowledge that can run on both IOS and Android periods, and its USB chargeable battery can last 18 months.

4. CONCLUSIONS AND FUTURE ENHANCEMENT

The Bluetooth- pursuing mechanism is utilized to trail the valuables and phone by employing PROTAG ELITE. It is a kind of Bluetooth that are utilized to find the valuables by employing their features that are given above. The counseled arrangement implies the maintenance of concord to clients even nevertheless they capitulated their priceless via IOS and Android phones. Upcoming enhancement is, we can use extra distinct protection like voice credit and bio-metrics and so on to give extra protection to our device.
